Susan and Brandi Todd are the superfund points of contact on Nutro. Believe they are working with RCRA enforcement.

Nutro Products is not an NPL site. Looks like it is in site assessment phase. Maybe Chris Villarreal or Bret Kendrick can provide info.

Can we keep Houston Health Department informed of our plans and actions in her area. Also, is anyone familiar with Nutro Products Corp.

Bryant Smalley

Thank you Bryant. Please keep me updated. I would also like the data to be shared with us for tracking and planning our own sampling.

You mentioned that EPA took surface water samples at Arkema. Can you please share that with us?

No one called me from enforcement regarding Valero. There was communication with an EPA and a health department engineer, Isaac Desouza.

Ms. Raun – thank you for reaching out to the REOC. From our conversation, you are interested in what sampling will be done around Superfund Sites and other industrial facilities in the Houston area. I will touch base with our folks here to see what I can find out about Nutro Products Corp.

Did any one get back to Houston health department? I just read in the updated report about SF site assessments.
